

LOGISTICS WITHOUT BORDERS

www.dhl-usa.com/en/logistics.html

END-TO-END TRANSPORTATION AND SUPPLY CHAIN SOLUTIONS
ACROSS INTERNATIONAL BORDERS.

EXCELLENCE. SIMPLY DELIVERED.

LOGISTICS WITHOUT BORDERS

SUPPORT NETWORK

LOGISTICS WITHOUT BORDERS CONNECTS SUPPLIERS, CARRIERS AND END-USERS ON BOTH SIDES OF THE BORDER FOR AN END-TO-END SOLUTION.

For many companies with an international supply chain, multiple vendors and handoffs come with the territory.

This means more opportunities for shipments to be compromised or delayed. DHL Global Forwarding offers a global footprint and extended network on both sides of the border, along with broad expertise in customs brokerage and border crossing.

With DHL Global Forwarding, you can trade the complexities, uncertainties and costs associated with a fragmented supply chain for the efficiencies and simplicity of a fully integrated solution, incorporating best practices at every step.

REDEFINING CROSS-BORDER SUPPLY CHAINS

Moving supplies and finished goods across the U.S. and Mexico border is a necessity for many companies. But sourcing and manufacturing in Mexico is not without its challenges.

Security, customs compliance and border congestion all have the potential to wreak havoc on your supply chain and prevent your shipments from reaching their destinations securely and on time.

With Logistics Without Borders, you can eliminate the challenges inherent in border crossings.

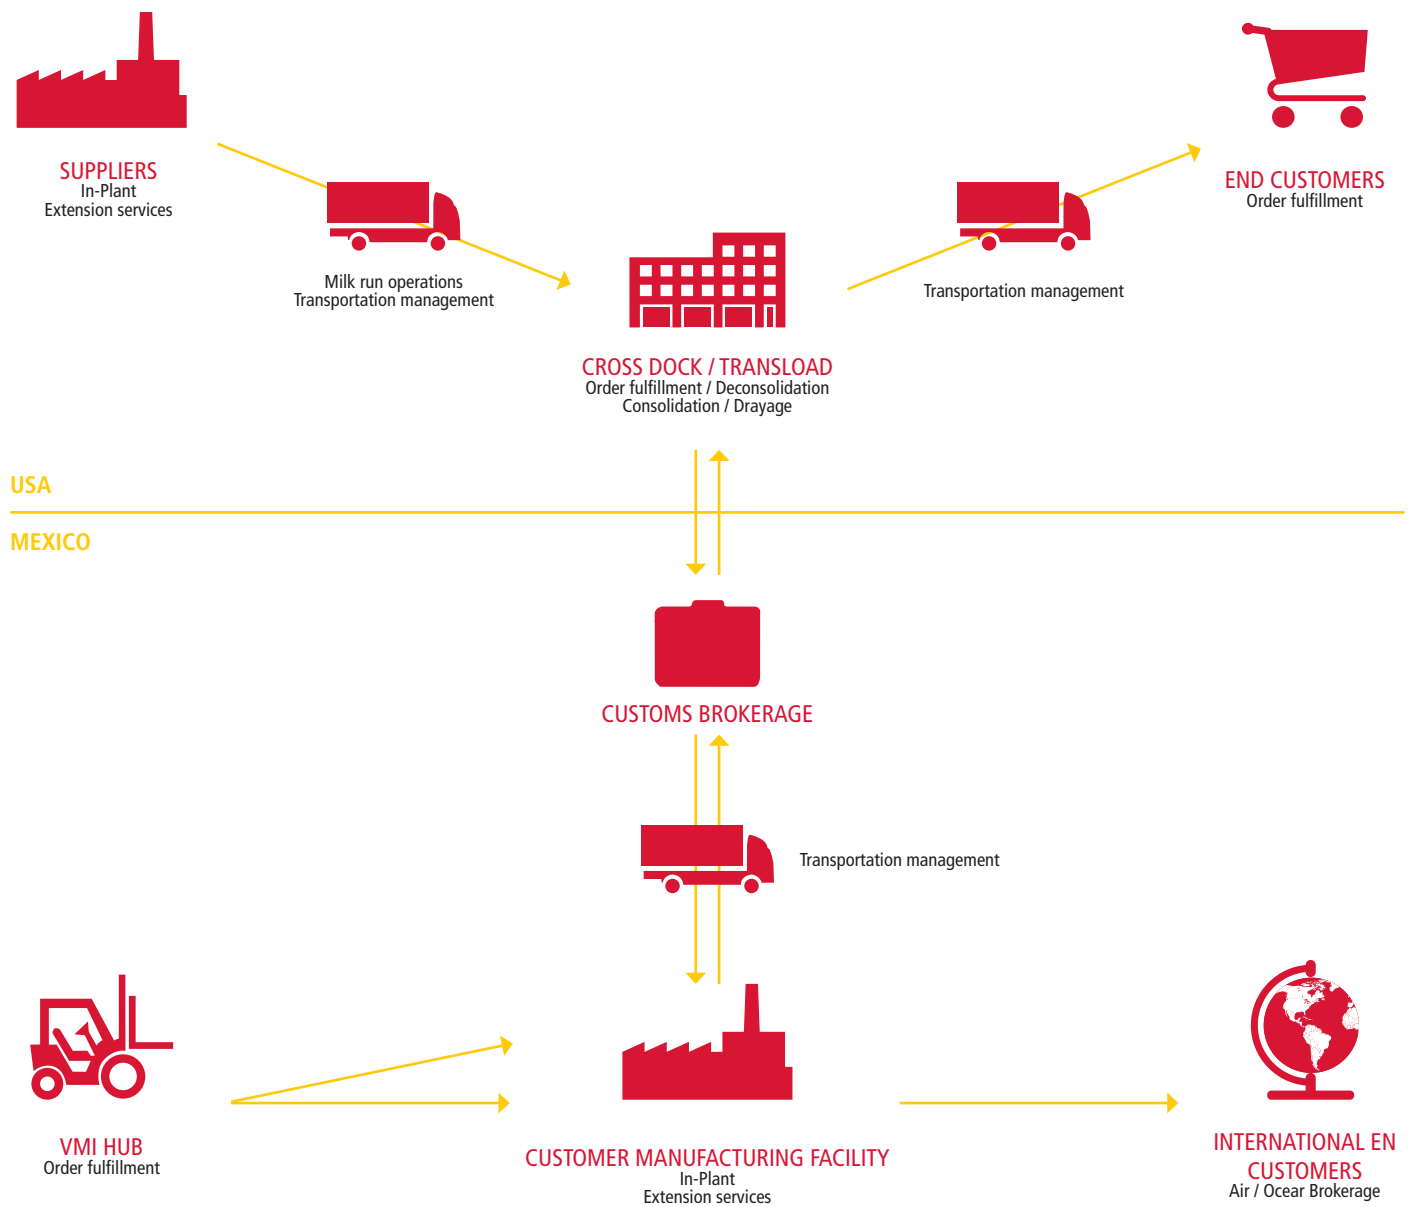

And you will benefit from a seamless supply chain across the border and beyond, gaining the complete control and visibility that only a true end-to-end, integrated supply chain can offer.

Logistics Without Borders is the only cross border solution that combines proven customs brokerage and global forwarding services with the worldwide reach and value-added services of DHL Global Forwarding.

With DHL Global Forwarding, your business gets the freedom to operate efficiently, securely and confidently—anywhere in the world.

International Trucking Value Proposition

- Global Company resource with Global Customer experience.
- Comprehensive and flexible solutions with LTL shipments, Truckloads and expedited shipments to help facilitate your entire supply chain.
