

AN INNOVATIVE SOLUTION FOR YOUR CUSTOMS COMPLIANCE REQUIREMENTS

Welcome to the New Generation of Customs Border Protection (CPB) Processing.

DHL Global Forwarding is excited to announce an innovative solution for your Customs Compliance requirements. This new processing model balances your demand for rigorous customs compliance monitoring. DHL Global Forwarding's model is a true Remote Location Filing hybrid located in Columbia, SC. This processing facility will be supported by local licensed brokerage representation at the ports of entry throughout the U.S. This model allows our customers 24/7 processing and communications to meet critical entry summary and security requirements. With comprehensive technology, our processing controls, imaging, and work flow model allows entries to be processed correctly, on time - all the time.

Moving your business forward. **Globally.**

A MODEL LIKE NO OTHER

We have enhanced entry processing, customer service, billing, dispatching technical service, and post entry needs, giving prompt and accurate information from one location. Our local port offices will continue to have experienced licensed individuals to interact with you and CBP to assist in monitoring critical local port activities.

- Our diligent process planning will allow us to aggressively deliver for our customers regardless of how large or small.
- Our brokerage service will exceed your expectations with our specialized commodity based entry processing system.
- Our experienced staff will assist you in dealing with other government agencies or handling your specialized trade preferences.

BENEFITS OF THIS BROKERAGE DESIGN ARE:

- Technology Driven: offering imaging and workflow tools, with automated features for status and volume reporting via electronic information using EDI, FTP, and XML formats.
- Streamlined Standards: encompassing entry, security, billing, supplier, and vendor processing within our team concepts with automatic indicators to monitor your account with accuracy and precision.
- Room to grow from our entry processing services to these other core services: Free Trade Zones, Reconciliation, Drawback, U.S. Trade Services, and Global Compliance needs.
